A WELCOME FROM THE PRINCIPAL OF CEMI

Dear Applicants,

I am very pleased that you are thinking about your further professional progress in the field of MBA education at CEMI. The Central European Management Institute (or CEMI) was established with the vision of providing **a high-quality MBA education**, available for students **from all over the world**, regardless of where they live, which **can be combined with a challenging job or any other employment**. CEMI was created as an institution that will look at the world of education in a modern way and without any prejudices about the usage of online technologies.

The Latin phrase „NEMO NASCITUR SAPIENS“ in our logo, meaning „Nobody is born wise“, indicates the mission of our institute - to **contribute to the further personal and professional progress of our students** and to help them to achieve competitive advantages in the business or labour market by getting a prestigious education.

Our vision was also to build up a lecturer - student relationship at a completely different level than usual. That is why **our lecturers play the role of consultants**, coaches, mentors (and later also friends), who guide students through their entire studies and **are always helpful**.

This online study principle, based on individual consultations with the lecturers, has met with **very positive feedback**, so we have welcomed more than 1600 satisfied students from all over the world.

I will be very pleased if you also became one of our satisfied clients!
